State Aid for Library Construction Fiscal Year 2020/2021

A Report to the Legislature

Introduction

This mandated report provides an update to the New York State Legislature regarding the impact of *Chapter 498 of the Laws of 2011*, which amended Education Law §273-a State Aid for Library Construction, effective for the first time in State Fiscal Year 2012/2013.

This Fiscal Year 2020/2021 report is available on the State Library's website at:

[State Aid for Library Construction; A Report to the Legislature](#)

Fiscal Year 2020/2021 is the ninth year of State Aid for Library Construction projects funded under the following provisions of *Chapter 498*:

"...state aid may be provided for up to seventy-five percent of the total project approved costs for building of public libraries that are located in an economically disadvantaged community."

"Each application shall...contain documentation, where such an application requests state aid in an amount greater than fifty percent, demonstrating how the project will address the service needs of one or more economically disadvantaged communities. Such documentation may demonstrate need through poverty rates, concentrations of English language learners, low high school graduation rates, limited fiscal capacity or other relevant factors..."

"The commissioner shall submit to the temporary president of the senate and the speaker of the assembly an annual report describing those projects that have received state funding of greater than fifty percent of project costs and the communities to be served by those projects."

The Legislature's enactment of *Chapter 498 of the Laws of 2011* continues to help expand local library access to State funding for construction and renovation projects. The option of State funding for up to seventy-five percent of the project cost for library buildings serving economically disadvantaged communities has had positive effects on local libraries and the communities they serve.

Legislation passed by the Legislature and signed by the Governor during the 2019 legislative session extended the provisions in *Chapter 498* through March 31, 2023 (*Chapter 192 of the Laws of 2019*). Additional legislation signed in October 2019 (*Chapter 381 of the Laws of 2019*), allows for the possibility of library projects being funded at up to 90% of the total project cost for library buildings in economically distressed communities.

Overview of Fiscal Year 2020/2021 Projects

State Aid for Library Construction is a formula aid program administered by the New York State Library, a unit of the Office of Cultural Education in the State Education Department. The program is administered in partnership with New York State's 23 public library systems and the Dormitory Authority of the State of New York.

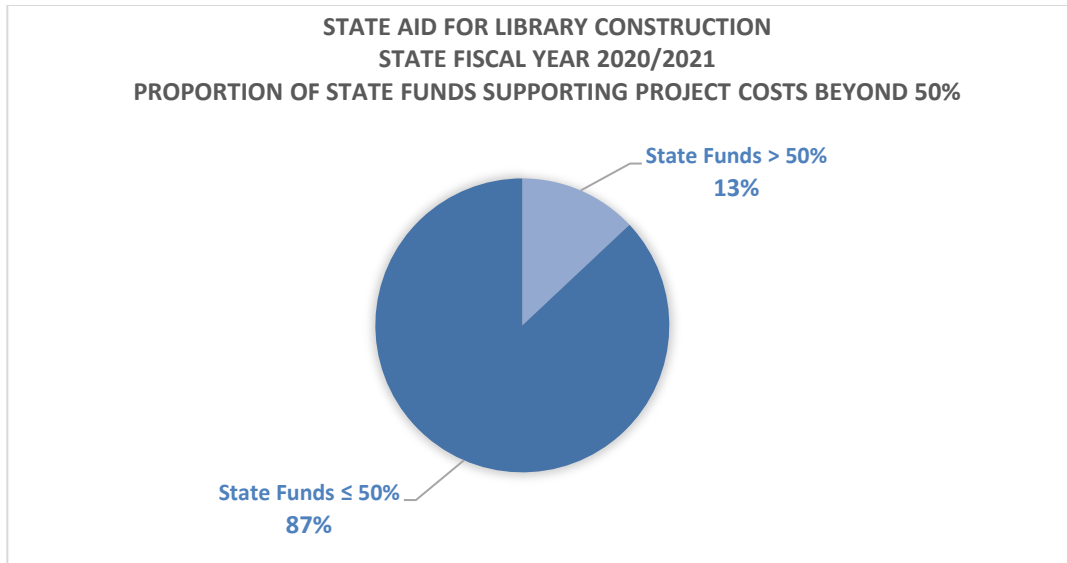

State Aid for Library Construction formula funding supported 135 projects with the \$14 million in capital funds provided in the Fiscal Year 2020/2021 State Budget. Project descriptions are posted on the State Library's website: [State Aid for Library Construction Program FY20-21 Awards Listed by Public Library System/County.](#)

Overview of Fiscal Year 2020/2021 Projects Funded Beyond Fifty Percent

Appendix A includes a list of the seventy (70) construction projects located in economically disadvantaged communities that received an award of State funding beyond fifty percent of the total project cost. These 70 projects represent slightly more than half of the total of 135 projects funded for FY 2020/2021. The breakdown is as follows:

- 24 projects were funded at over 50%, but less than 75% (18% of 135 projects);
- 43 projects were funded at 75% (32% of 135 projects); and
- Three (3) projects, located in economically distressed communities, were funded beyond 75% up to and including 90%, per *Chapter 381 of the Laws of 2019*. Two of the three projects received an award of 90%.

As illustrated in the pie charts below, \$1.8 million in State funds supported that proportion of the 70 project awards exceeding the fifty percent (50%) funding level. Overall, the \$1.8 million represents thirteen percent (13%) of the \$14 million in capital funds available for the FY 2020/2021.

The following chart breaks down the 70 projects by library system and county and by funding range. The project funding ranges include:

- State funding over 50 percent, up to and including 60 percent.
- State funding over 60 percent, up to but not including 75 percent.
- State funding at 75 percent, and
- State funding of greater than 75 percent up to and including 90 percent.

Overview of Criteria Used to Document Eligibility for State Funding Beyond Fifty Percent

State funding beyond fifty (50) percent was requested for seventy (70) out of 135 projects in Fiscal Year 2020/2021. Library systems used one or more of the criteria included in Education Law §273-a to document a project’s eligibility for the state funding beyond 50%.

The criteria used most often by library systems were free and reduced lunch eligibility, poverty rates, household income levels, and unemployment rate data. Some systems used education levels, the number of English language learners, and/or housing values and foreclosure data. *Appendix B* lists the types of eligibility criteria used to document eligibility for each project.

Conclusion

Based upon the information and data described in this statutorily mandated report and other prior year reports, the New York State Education Department has determined that changes enacted to Education Law §273-a by *Chapter 498 of the Laws of 2011* continue to have a positive impact on public library construction and renovation projects for facilities located in economically disadvantaged communities.

These provisions enable more libraries to:

- Improve access to library programs and services for people with disabilities
- Accommodate new technologies
- Increase energy efficiency

- Enhance spaces for programs and collections
- Improve customer service
- Increase broadband capacity
- Prepare for and recover from natural disasters
- Create sustainable community partnerships, and
- Leverage other public and private funds.

The State Education Department recommends that the provisions of *Chapter 498* be made permanent in statute.

Watkins Glen Public Library in Schuyler County, New York.
Improved accessibility project that features ADA compliant sidewalk entryways.
