# **State Aid for Library Construction Fiscal Year 2018/2019 A Report to the Legislature**

## **Introduction**

This mandated report provides an update to the New York State Legislature regarding the impact of *Chapter 498 of the Laws of 2011*, which amended Education Law §273-a State Aid for Library Construction, effective for the first time in State Fiscal Year 2012/2013.

This Fiscal Year 2018/2019 report is available on the State Library's website at:

<http://www.nysl.nysed.gov/libdev/construc/1819report.pdf>

Fiscal Year 2018/2019 is the seventh year of State Aid for Library Construction projects funded under the following provisions of *Chapter 498*:

***"...state aid may be provided for up to seventy-five percent of the total project approved costs for building of public libraries that are located in an economically disadvantaged community."***

***"Each application shall...contain documentation, where such an application requests state aid in an amount greater than fifty percent, demonstrating how the project will address the service needs of one or more economically disadvantaged communities. Such documentation may demonstrate need through poverty rates, concentrations of English language learners, low high school graduation rates, limited fiscal capacity or other relevant factors..."***

***"The commissioner shall submit to the temporary president of the senate and the speaker of the assembly an annual report describing those projects that have received state funding of greater than fifty percent of project costs and the communities to be served by those projects."***

The Legislature's enactment of *Chapter 498 of the Laws of 2011* continues to help expand local library access to State funding for construction and renovation projects. The "flexible match option" of State funding for up to seventy-five percent of the project cost for library buildings serving economically disadvantaged communities has had positive effects on local libraries and the communities they serve.

## **Overview of Fiscal Year 2018/2019 Projects**

State Aid for Library Construction is a formula aid program administered by the New York State Library, a unit of the Office of Cultural Education in the State Education Department. The

program is administered in partnership with New York State's 23 public library systems and the Dormitory Authority of the State of New York.

State Aid for Library Construction formula funding supported 251 projects with the \$34 million in capital funds provided in the Fiscal Year 2018/2019 State Budget.

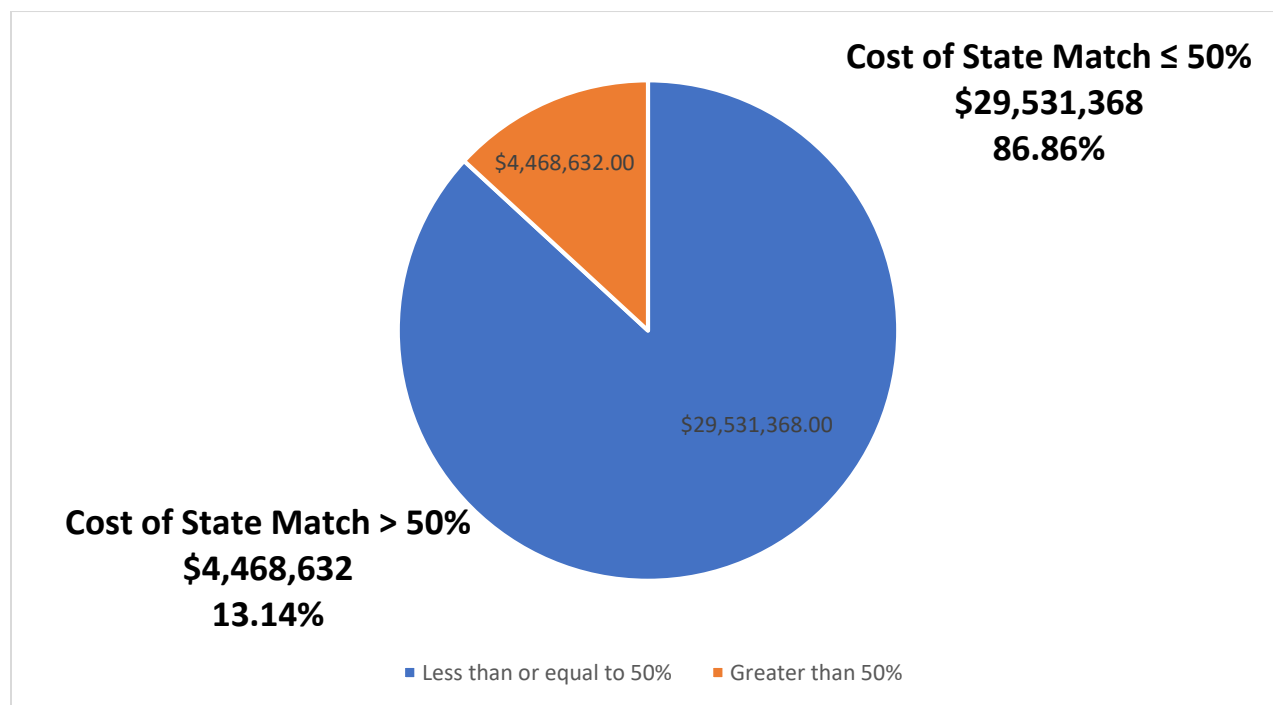

The project descriptions are posted on the State Library's website at:

[http://www.nysl.nysed.gov/libdev/construc/34m\\_pls19.htm](http://www.nysl.nysed.gov/libdev/construc/34m_pls19.htm)

### **Overview of Projects with a State Match Over Fifty Percent**

Fifty-seven percent of the Fiscal Year 2018/2019 projects (144 of the 251 projects) were able to take advantage of the option to receive State funding for a flexible match of up to 75% of project costs, with almost thirty-five percent (34.26%) (86 of the 251 projects) receiving the full 75%. *Appendix A* includes a list of the 144 projects. As illustrated in the chart below, of the available Fiscal Year 2018/2019 capital appropriation of \$34 million, \$4.47 million funded project costs above 50%. This equals 13.14% of the total \$34 million.

**State Aid for Library Construction Project Awards Fiscal Years 2018-2019  
Percentage of \$34 Million Used for State Match Above 50%**

Source: Fiscal Year 2018/2019 Project Applications. New York State Library, New York State Education Department.

The following chart lists Fiscal Year 2018/2019 projects by library system and county. The projects awarded State funding for over 50 percent of the project costs are also categorized by three match percentage ranges:

- State Funding for over 50 percent, up to and including 60 percent,
- State Funding over 60 percent, up to 75 percent, and
- State Funding of 75 percent.

## **Overview of Criteria Used to Document Eligibility for State Match Over 50%**

The flexible State match of over 50 percent was requested for 144 projects in Fiscal Year 2018/2019. Library systems used one or more of the criteria included in Education Law §273-a to document a project's eligibility for the flexible match.

The criteria used most often by library systems were poverty rates, household income levels, unemployment rates, and free and reduced lunch eligibility data from the New York State Education Department. Some systems used education levels, the number of English language learners, and/or housing values and foreclosure data from the U.S. Census Bureau.

*Appendix B* lists the types of eligibility criteria used to document match eligibility for each project.

## **Conclusion**

Based upon the information and data described in this statutorily mandated report and other prior year reports, the New York State Education Department has determined that changes enacted to Education Law §273-a by *Chapter 498 of the Laws of 2011* continue to have a positive impact on public library construction and renovation projects for facilities located in economically disadvantaged communities.

For example, twenty-two libraries applied for construction funding for the first time in Fiscal Year 2018/2019. Of those, fifteen (68%) received the flexible match.

The flexible match continues to enable more libraries to:

- Improve access to library programs and services for people with disabilities
- Accommodate new technologies
- Increase energy efficiency
- Enhance spaces for programs and collections
- Improve customer service
- Increase broadband capacity
- Prepare for and recover from natural disasters
- Create sustainable community partnerships, and
- Leverage other public and private funds.

Legislation passed by the Legislature and signed by the Governor during the 2019 legislative session extended the flexible match provisions in *Chapter 498* through March 31, 2023 (*Chapter 192 of the Laws of 2019*). Additional legislation signed in October 2019 (*Chapter 381 of the Laws of 2019*), allows for the possibility of library projects being funded at up to 90% of the total project cost for library buildings in economically distressed communities.
