

**John Kennedy School  
166 Vine Street  
Batavia, New York 14020**

**March 25, 1998**

**To Whom it May Concern:**

**We at John Kennedy School fully support the "Science Wizardry" grant proposal currently being considered.**

**The development of science support materials would be an asset to the library and the district, as a whole, benefitting the elementary science curriculum specifically. Current resources are limited, and we recognize that there is a clear necessity to provide access to these materials to students.**

**Our school, including the school media specialist and elementary classroom teachers, would utilize this collection with class visits, sharing the circulating kits and support materials, attendance at relevant "science" events, and by encouraging students and their parents to take advantage of the collection and orientation programs at the public library. The collection would also enable primary students to develop early science awareness, and therefore would further prepare students for in-school science experiences and understanding. We would also work together to develop and support related projects to extend and enrich the science curriculum.**

**We respectfully ask that you support this grant. Thank you for your consideration.**

**Very truly yours,**

**Jill Feine, School Media Specialist**

**John Murray, Principal**

**John Kennedy Faculty**
