All public school districts have a Super Delegated Administrator (SDA). They may or may not have assigned the roles of DA, EA, or DA/EA to one or more persons working at the district.

These are the steps to follow when providing access to the survey:

The DA/EA will create a user account if the person who will enter the plan into the portal does not have SEDDAS permissions.

Once a user has SEDDAS permissions, the EA or DA/EA will entitle the user to the SED Monitoring application. The user will then be assigned the role of Data Access for Data View and Data Entry.

1. Click "Entitlements".
2. Search for the desired user by last name or user name.
3. Select the desired user and click "Select to Entitle".
4. Select "SED Monitoring & Vendor Performance System" and click "Start Entitling".
5. Select "Data Access" in the *Role* drop-down box, if it not already selected.
6. Select "NY State Library" in the *Data Entry* section to give the user the ability to view data, fill out the Assurances, and print the State Aid Application. **However, to limit the user to read access only, check N/A in *Data Entry*, then check "NY State Library" in the *Data View* section.**
7. Click "Next". You will then be able to click Grant Access. The process will then be complete. **For illustrations of these steps, please see pages 5-8 below.**
