State Aid for Library Construction Fiscal Year 2021-2022

A Report to the Legislature

Introduction

This mandated report provides an update to the New York State Legislature regarding the impact of *Chapter 498 of the laws of 2011*, which amended Education Law §273-a State Aid for Library Construction, effective for the first time in State Fiscal Year 2012-2013.

This [Fiscal Year 2021/2022 report](#) is available on the State Library's website.

Fiscal year 2021-2022 is the tenth year of State Aid for Library Construction projects funded under the following provisions of *Chapter 498*:

“...state aid may be provided for up to seventy-five percent of the total project approved costs for building of public libraries that are located in an economically disadvantaged community.”

“Each application shall...contain documentation, where such an application requests state aid in an amount greater than fifty percent, demonstrating how the project will address the service needs of one or more economically disadvantaged communities. Such documentation may demonstrate need through poverty rates, concentrations of English language learners, low high school graduation rates, limited fiscal capacity or other relevant factors...”

“The commissioner shall submit to the temporary president of the senate and the speaker of the assembly an annual report describing those projects that have received state funding of greater than fifty percent of project costs and the communities to be served by those projects.”

The Legislature's enactment of *Chapter 498 of the Laws of 2011* continues to help expand local library access to State funding for construction and renovation projects. The option of State funding for up to seventy-five percent of the project cost for library buildings serving economically disadvantaged communities has had positive effects on local libraries and the communities they serve.

Legislation passed by the Legislature and signed by the Governor during the 2019 legislative session extended the provisions in *Chapter 498* through March 31, 2023 (*Chapter 192 of the Laws of 2019*). Additional legislation signed in October 2019 (*Chapter 381 of the Laws of 2019*), allows for the possibility of library projects being funded at up to 90% of the total project cost for library buildings in economically distressed communities.

Chapter 389 of the Laws of New York 2019 provided the opportunity for library systems and libraries to work together on Coordinated Projects, leveraging the resources of multiple locations for economic efficiencies.

The Covid pandemic impacted the ability of libraries to complete projects within the statutory deadlines, but legislation signed in June 2020 (*Chapter 120 of the Laws of New York 2020*) and June 2022 (*Chapter 333 of the Laws of New York 2022*) provided extensions to the deadlines to complete projects, giving all projects up to six years to be completed.

Overview of Fiscal Year 2021-2022 Projects

State Aid for Library Construction is a formula aid program administered by the New York State Library, a unit of the Office of Cultural Education in the State Education Department. The program is administered in partnership with New York State's 23 public library systems and the Dormitory Authority of the State of New York.

State Aid for Library Construction formula funding supported 223 with the \$34 million in capital funds provided in the [fiscal year 2021/2022 State Budget](#). Project Descriptions are posted on the State Library's website: State Aid for Library Construction Program FY21-22 Awards Listed by Public Library System/County.

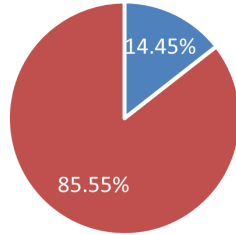

Overview of Fiscal Year 2021-2022 Projects Funded Beyond Fifty Percent

Appendix A includes a list of the one-hundred and thirty (130) construction projects located in economically disadvantaged communities that received an award of State funding beyond fifty percent of the total project cost. These 130 projects represent more than half of the total 223 projects funded for FY 2021/2022. The breakdown is as follows:

- 10 projects were funded at over 50%, but less than 75% of the total project costs (4% of 223 projects);
- 114 projects were funded at 75% (51% of 223 projects);
- 6 projects, located in economically distressed communities, were funded beyond 75% up to and including 90%, per *Chapter 381 of the Laws*. 5 of the 6 projects received an award of 90%.

As illustrated in the pie chart below, of the \$34 million in State Aid for Library Construction available for FY 2021/2022, \$4.9 million in State funds (14%) was used to support projects awards exceeding the fifty percent (50%) funding level.

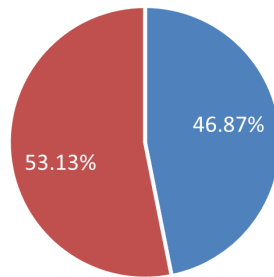

State Aid for Library Construction, State Fiscal Year 2021/2022
Proportion of State Funds Supporting Project Costs Beyond 50%

■ State Funds > 50% ■ State Funds ≤ 50%

As illustrated in the pie chart below, of the 223 projects which received State Aid for Library Construction capital funds, 130 (53%) received an award of State funding greater than, or equal to, fifty percent of the total project cost.

State Aid for Library Construction, State Fiscal Year 2021/2022
Percentage of Projects Funded Beyond 50%

■ DLD Award > 50% ■ DLD Award ≤ 50%

Table: Projects with State Funding Beyond 50%, by Library System and County

The following chart breaks down the 130 projects by library system and county, with libraries throughout the state receiving funding for more than 50% of the total project costs.

Overview of Criteria Used to Document Eligibility for State Funding Beyond Fifty Percent

State funding beyond fifty (50) percent was requested for one hundred and thirty (130) out of 223 projects in Fiscal Year 2021-2022. Library systems used one or more of the criteria in [Education Law §273-a](#) to document a project’s eligibility for the state funding beyond 50%.

Library systems can select more than one category of eligibility for funding higher than 50% of the total project costs. The criteria used most often by library systems were free and reduced lunch eligibility (91 projects), poverty rates/household income levels (98), and unemployment rate (53) Some systems used education levels (34), the number of English language learners (15), housing values and foreclosure data (10) or other documented criteria.

Conclusion

The New York State Education Department has determined that changes enacted to Education Law §273-a by *Chapter 498 of the Laws of 2011* continue to have a positive impact on public library construction and renovation projects for libraries located in economically disadvantaged communities. SED recommends that the provisions of *Chapter 498* be made permanent in statute.

These provisions enable more libraries to:

- Improve access to library programs and services for people with disabilities
- Accommodate new technologies
- Increase energy efficiency
- Enhance spaces for programs and collections
- Improve customer service
- Increase broadband capacity
- Prepare for and recover from natural disasters
- Create sustainable community partnerships,
