BACKGROUND INFORMATION

In the late 1950's, the State Legislature and Governor authorized the establishment of public library systems in Education Law. Governance and function are established in the Regulations of the Commissioner of Education. Each public library system is governed by a board of trustees.

The State created library systems to expand the resources of all local libraries enabling them to buy services and share resources cooperatively. Most of the 23 public library systems are supported entirely by State Aid. Systems qualify for aid based on an approved five-year plan of service and annual report. A portion of the State Aid is direct aid for member libraries.

Public library systems facilitate sharing of library resources so all New Yorkers have access to information and library services that advance and enhance their lives as workers, citizens, family members, and lifelong learners. Systems provide cooperative programs and services that help local communities take advantage of economies of scale. System staff provide professional expertise that helps local libraries achieve their full potential.
