DIGITAL FLUENCY

A PROGRESSION OF SKILLS LEADS TO A PROGRESSION OF OPPORTUNITY

DIGITAL DIVIDE

- No access - limited or no tech learning

DIGITAL EQUITY

- Expanded practice both informal and formal
- Typically achieved with device ownership

DIGITAL FLUENCY

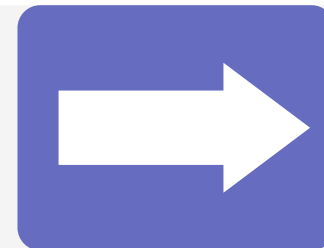

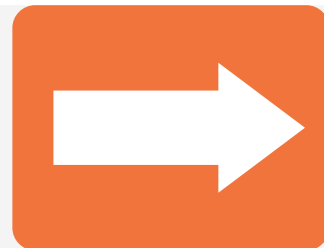

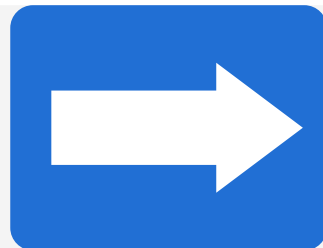

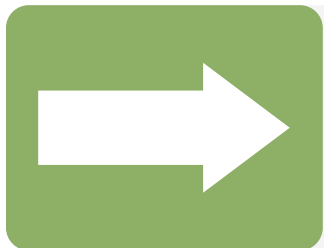

- Efficiency of use
- Growing digital resilience - ability to solve tech problems
- Workforce readiness

WORKFORCE RESKILLED

- Trained for specific job sectors

PROFESSIONAL SKILLS

- Digital knowledge is consolidated and can be transferred across multiple devices and software platforms
- Potential pursuit of work as a technologist

COMMON MYTHS

..... Kids are digital natives. They do not need computer instruction.

..... At least they have access at work.

..... How can we give people devices? They will use it for "unsafe" or bad internet activities.

..... Cellular access & smartphones will solve this problem.

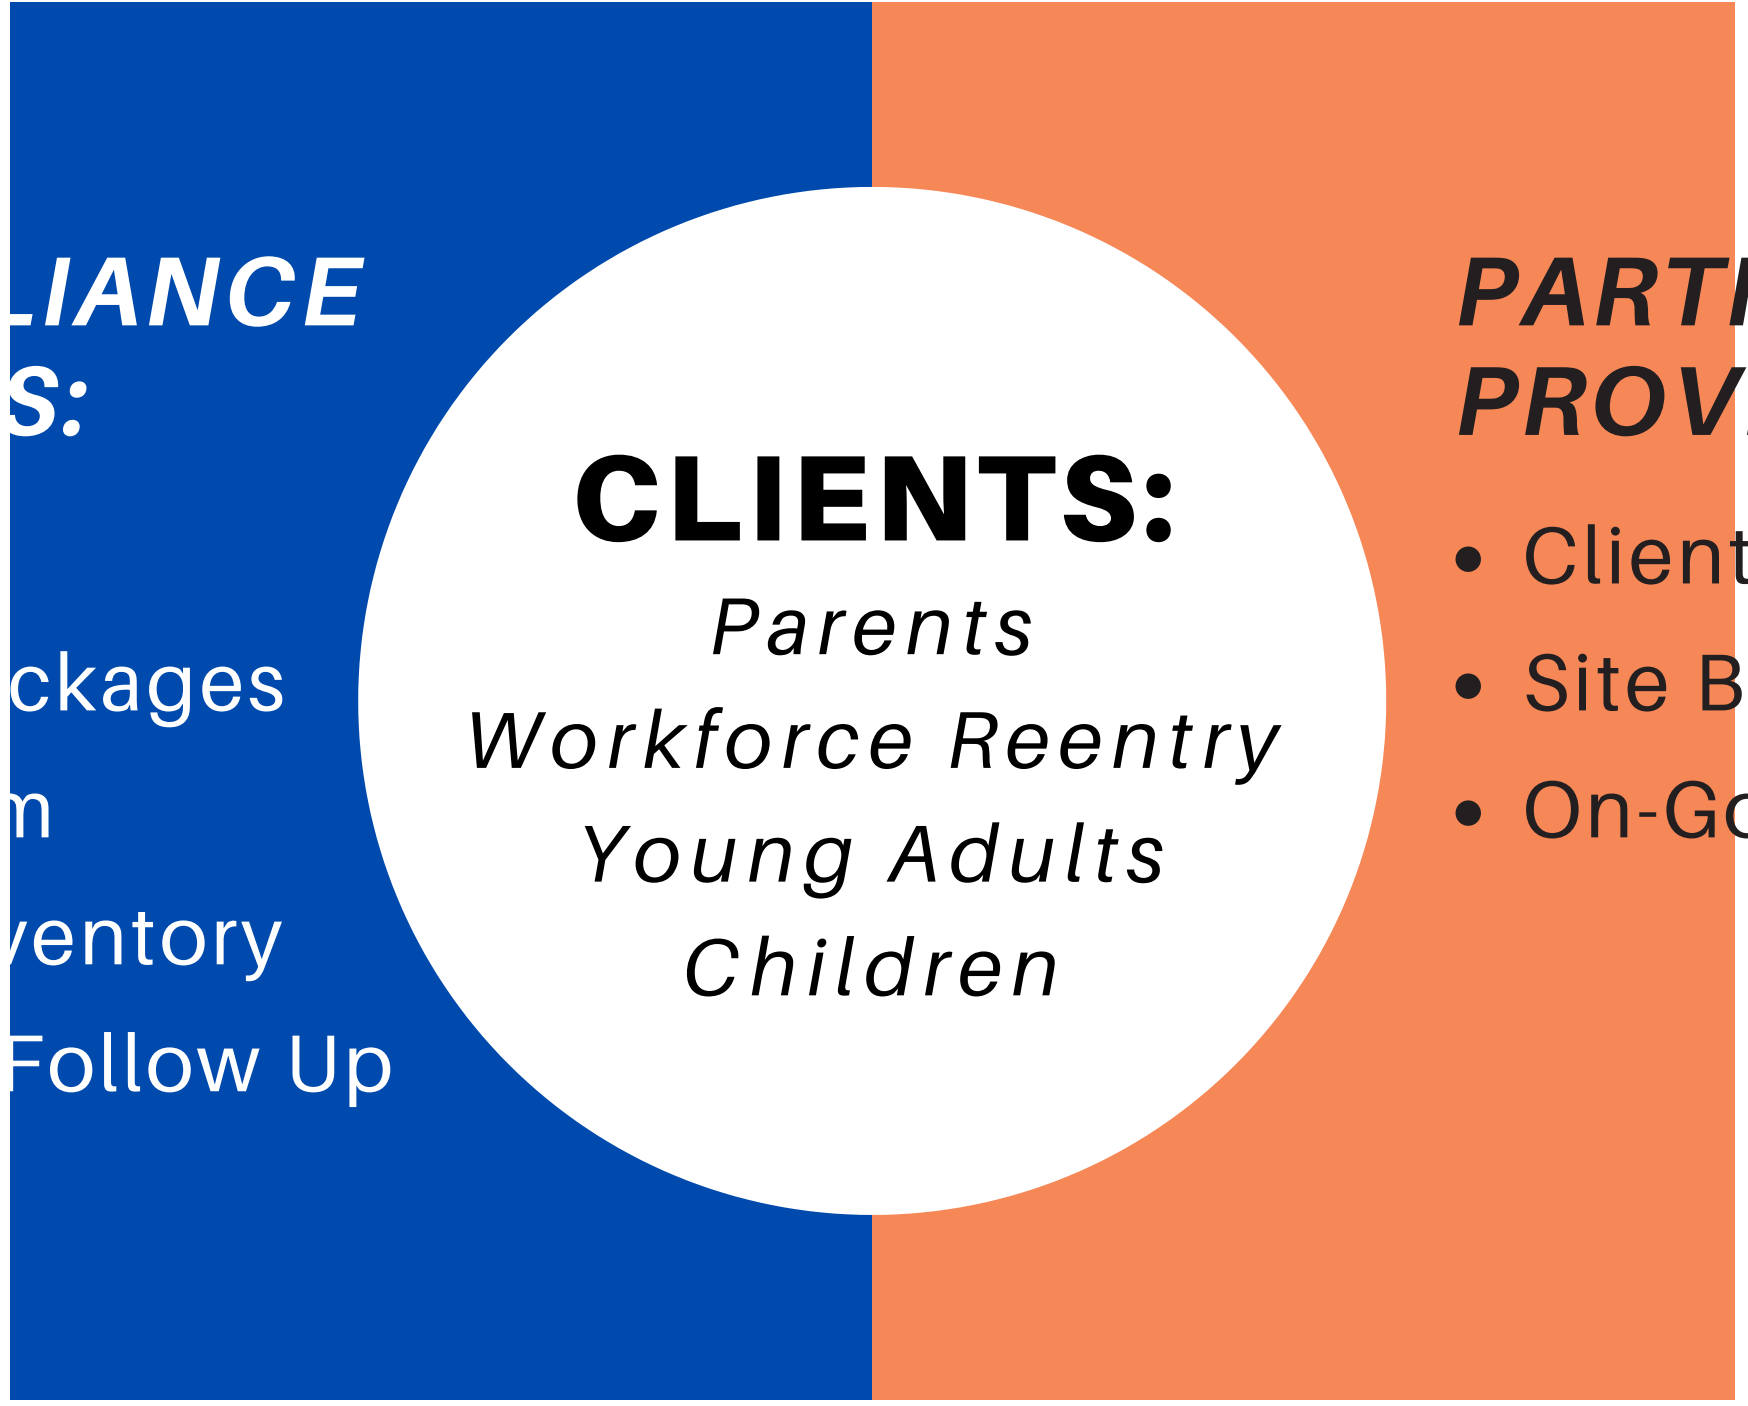

..... The schools will take care of this.
